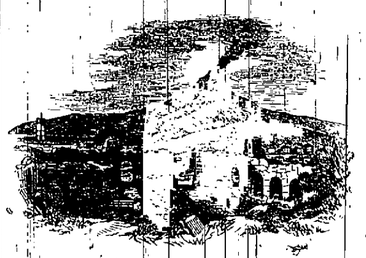
ÆTNA



LIFE INSURANCE COMPANY,

OF HARTFORD, CONN.

THE ÆTNA LIFE INSURANCE COMPANY

Grew out of the Old Ætna Fire Insurance Company, having been first organized as a Branch of that Company. The Life Fund was afterward separated from the Fire Fund, with the same Stockholders as before. In 1861 the Mutual was combined with the Stock plan; by this combination the insured secure *all* the benefits of a Mutual Co., and the additional security which a safely invested capital affords. Since that time the ÆTNA has enjoyed unusual prosperity, and increased its business to an unprecedented extent. The energy and enterprise which have characterized its operations are best indicated by the following figures:—

The Receipts for the Year 1863 were $201.454 67.
The Receipts for the Year 1864 were 694.827 53.
The Receipts for the Year 1865 were 1.683.039 57.

The number of Policies issued during the year 1865 was 8819.

THE UNPARALLELED GROWTH or "attainment of breadth" of base is well regarded by competent authority as the true measure of success.

The ÆTNA pays a 50 per cent. dividend on the premiums of ordinary Life Policies TWO YEARS from the first payment of premium. This is 6 per cent better than the 50 per cent. dividend paid by other Companies *four years* from the first payment of premium. The Ætna issues the usual

Life Plan and the Endowment Plan, also the

TEN-YEAR NON-FORFEITING POLICIES,

TEN-YEAR NON-FORFEITING ENDOWMENT POLICIES.

The Ætna stands ahead in new business and with the lowest expenses, which is the best guarantee to the insured.

☞ All information cheerfully given and applications for policies taken by the subscribers.

S. D. & H. W. SMITH'S AMERICAN ORGANS

MANUFACTORY,

Tremont, opposite Waltham St.,

BOSTON, MASS.

The most perfect and beautiful Musical Instrument in the world for the American Home Circle.

THE AMERICAN ORGAN makes Home Attractive, and refines and elevates the minds of all. Beautiful in its appearance and effects.

Seventeen---17---First Premiums were awarded to the American Organs IN THE MONTH OF OCTOBER, 1865, over all Competitors, at different State and County Fairs.

First Premium awarded to the American Organs at the Great New York State Agricultural Fair at Rochester, September 1864, over the Whole catalogue exhibited by the most Celebrated Makers.

THE AMERICAN ORGANS are the ONLY REAL REED ORGANS now before the public.—The only Organ having a REVERBERATING SOUND BOX or WIND CHEST—which has the same important part to perform as the Sounding Board has in a Piano Forte (to give body and resonance of tone) and without which the Organ becomes merely a Melodeon in an Organ case. The American Organs not only have the Wind Chest or Sound-Box but have the large Organ Bellows, giving power and great steadiness of tone. These with their extreme fine voicing of the Reeds and perfecting of the tone, make them the MOST PERFECT ORGAN KNOWN. Then, in fineness of workmanship, finish of action, and case, they excel all others. These great improvements and superiority of tone and workmanship of the AMERICAN ORGANS place them in the first rank as the best, and command a higher price than any other reed instrument in the market. A careful examination of them, in comparison with others, will quickly shew their superiority.

Special attention is called to the style of AMERICAN ORGAN, No. 17, containing the Super-Octave Coupler and Sub-Bass. FOR CHURCHES in want of a powerful instrument, whose means are limited, its price renders it very desirable.

EVERY ORGAN IS WARRANTED TO PROVE SATISFACTORY.

THE AMERICAN ORGANS all have the Reverberating Sound-Box, or Wind-Chest, and are finished in the highest style of art, in Rosewood, Jet Walnut, and Oak finish, richly Varnished and Polished, or in Smooth Oil Finish, forming elegant pieces of Furniture for the Parlor or Boudoir; and the Oak and Walnut especially adapted for Churches, Lecture and Lodge Rooms.

THE AMERICAN ORGANS are all finished with our new PATENT improvements, containing the improved Knee Swell, Double Bellows, two Blow Pedals, and TREMOLO found in no other instrument.

NEW YORK, Feb. 27.

Gen Grant left for Washington in the midnight train. During his visit General Grant has been presented by several of our leading worthy citizens with a purse of $100,000.

PHILADELPHIA, Feb. 27.

A destructive fire occurred this evening on Third street, above Race street, originating in Roberts' hardware store and communicating to James Kent, Santee & Co's extensive dry goods warehouse. The upper stories of the latter building were destroyed. Roberts' store was entirely destroyed. Jas. Kent, Santee & Co are insured, mostly in New York and New England. Total loss over three quarters of a million. George H. Roberts' loss was $40,000; Thomas & Bros., $20,000; Kent, Santee & Co, $700,000; dengstore of Shoemaker & Smith, $25,000. One fireman was killed, and several others are reported killed. The number of firemen injured altogether was 25.

SAN FRANCISCO, Feb. 26.

Hon Cornelius Colt, the recently elected U S Senator, spoke in the Assembly Chamber last Saturday eve. He was opposed to restoring the leaders of the rebellion to political power. There was no necessity for haste in reconstruction.

FORT LARAMIE, Feb. 26.

The Indians have received news that two more posts are to be established in their country. They are satisfied, and will make peace as soon as commissioners are sent to them.

WASHINGTON, Feb. 27.

The House Judiciary Committee have matured a bill reducing the Supreme Court to one chief and eight associate justices, which obviates the necessity of appointing a successor to Judge Catron.

Among those who had an interview with the President to-day were Governors Cox of Ohio, Sharkey of Mississippi, and Parsons of Alabama, and Generals Steadman, McCook and Sexton.

NEW YORK, Feb. 27.

Gen Grant was accidentally shot in the hand yesterday by the explosion of a new rifle which he was examining. The wound was not serious, and did not prevent his attending the reception at Brooklyn last evening, given in his honor.

NEW YORK, Feb. 27.

Judge Barnard of the Supreme Court, has decided that the courts have no authority to discharge minors from the army. The power rests alone in the Secretary of War.

A collision occurred on the Erie Railroad at Lordville, between the express and freight trains, by which a brakeman was killed. The conductor and engineer of the freight train have been arrested for manslaughter and held to bail.

The Tribune says—

Three members of the Cabinet who contemplated resigning, have concluded to await the action of the President. It is not improbable that he will remove one in a few days.

The Herald's special Toronto despatch says:

Reports from the English detectives at Pittsburg, state that Sweeney's plan is to make a demonstration against Canada about the middle of March with a small force, and strike New Brunswick via the Maine frontier, with his main column. [Humbug probably.]

LOUISVILLE, Feb. 26.

Writs of habeas corpus were issued today by Judge Ballard of the District Court for the Southern States, for the bodies of Captains Reed and Lenin, who were lately fined and committed to jail in Campbell County, for protecting the polls at the last election. The cases are important, and will present the whole subject of the powers of the military where martial law prevails.—Eminent Union lawyers have volunteered their services, in behalf of Gen. Palmer, to represent the United States.

NEW YORK, Feb. 26.

The Post's special Washington despatch says—

The President at an interview with some Congressmen last night, reiterated his views on national subjects, and said he regarded the test oath too severe, and gave as his opinion that the man who could take the oath to support the Constitution should be admitted to seats in Congress, but he should not quarrel with Congress on that point.

THE OLDEST HOUSE IN ENGLAND GONE. During the severe gales that have prevailed in England, the oldest house in England, the one at the bottom of Blue Anchor Lane, West Quay, Southampton, formerly the residence of King John, had one of the walls blown down, thereby destroying a secret court that existed within the wall, and which led to a subterranean passage, planned for the escape of its beleaguered occupants. In one of the walls of the house is a recess, the size and form of a human being, tradition asserting that a poor wretch was built into the wall alive, and there left by his barbarous jailors, to perish by the slow and torturing pangs of hunger. Within a few months a great local antiquary, the Rev. E. Kell, had photographed a taken of the remains of this celebrated historical residence.

SEARCHING FOR GUY FAWKES. Many of our readers will doubtless be surprised to hear that the ceremony of searching for Guy Fawkes still precedes the opening of Parliament. This year about seventy peers, commoners, and various officials, many of them in the full costume of office, met in the Prince's Chamber, back of the House of Lords. A lantern was given to each, tho' the hour was eleven o'clock in the morning. The procession passed through both houses, and halted near the Speaker's chair. In the rear of the chair is a trap door, about two feet square, and through that the illustrious personages had to go. After no little trouble they squeezed themselves through, and made the circuit of the subterranean apartments. Strange to relate, the terrible Guy was not found hidden in the cellar.

The Great Worm Remedy.

IT has been said by more than one eminent physician that more sickness among children is the result of Pin Worms than all other causes—that worms imitate the symptoms of many other diseases, often producing fatal results, without being suspected. From this cause of so much sickness, every family may have an effectual remedy, by procuring a bottle of

Dr. E. G. Gould's Pin Worm Syrup.

It will remove ordinary stomach worms oftener than any of the vermifuges in the market, and for Pin Worms it has no equal. It will relieve children or adults from all annoyance in twenty-four hours, and effect an entire cure when taken according to directions. It is a mild cathartic, and can be given to the youngest child with perfect safety. It improves the health by removing all impurities from the system.

WEDNESDAY, FEB. 28, 1866.

If any apology were necessary for publishing another notice of our late highly esteemed fellow citizen, Hosea Rich, which it is not, we should need only to say that the following well written report of the Penobscot Medical Association is sent to the Whig for publication because there is no distinctive medical journal printed in the State.

Biographical Sketch of Dr. Hosea Rich.

Prepared by a Committee of the Penobscot Medical Association.

Since our last meeting, a Nestor of the profession has passed away from the busy scenes of life,

We miss his genial smile, his cordial greetings, his instructive words; and it is eminently fit on this occasion to pass in review the leading events of his long and active life, that they may be the more vividly impressed on our memory.

Dr. Hosea Rich was born in Charlton, Worcester county, Mass., Oct. 1st, 1780.—He was the son of Paul and Mary Rich, and grandson of Deacon Jonathan Dennis who was a representative for twenty successive years in the Massachusetts Legislature. In his childhood he was inured to labor on the paternal farm, and thus, by this physical training, he laid the foundation of that vigorous constitution, that robust health which continued to the late evening of life, so that he always possessed a sound mind in a sound body.

He early manifested a decided predilection for the study of medicine—but, as he was the only surviving son, his parents desired to retain his services on the farm; yet by the advice of his grandfather, they at last reluctantly yielded to his importunity—and, after attending a common school and receiving instruction from a clergyman of his native town, he became a medical student of Dr. John Elliott Eaton, a skillful physician of Dudley, Mass., who was a graduate of Harvard University, and had been a student of Dr. Gardiner of Boston.

He devoted five years to the acquisition of his profession. His education was theoretical, practical, clinical. Besides reading the standard medical literature of that day, he accompanied his preceptor on horseback in his daily visits, and under his instructions he studied disease in its various phases at the bedside, and witnessed the administration and effects of the appropriate remedies.

During the latter part of his pupilage, he also rode with Dr. Thomas Babbitt, an eminent surgeon of Sturbridge who had been a student of Dr. John Warren and was a graduate of Harvard, class of 1784, and saw him perform several important operations which made a deep impression, so that they were of great utility to him in his own subsequent operations of the same kind. Having witnessed the practice of these two physicians, and having practiced medicine himself under their supervision, but with no advantages of a collegiate education, he became prepared for a life of usefulness in his chosen profession.

Dr. Rich, Jan. 6th, 1803, married Mrs. Fanny Goodale, whose maiden name was Barker, who died in May, 1864—and of eight children, one of whom was an able physician, but two now survive.

In 1803, at the age of twenty-five, he began to seek a favorable location. He first went to Thompson, Conn., thence to Cumberland, R. I., thence to New Jersey, and afterwards embarked from New York on an expedition for Port au Prince as a Surgeon's Assistant, but soon returned.

As Mrs. Rich's brother, the late John Barker, had removed to Bangor, then a small village in the wilderness of Maine, and as that locality was considered a favorable opening for an enterprising physician, he was induced to remove to that place. Accordingly he arrived in Bangor July 4th, 1805, where for more than sixty years he actively and successfully practiced medicine and surgery until Aug. 14th, 1865, when he contracted his last sickness which terminated in his death Jan. 30th, 1866, at the age of 85 years; and his remains repose at Mount Hope Cemetery.

Dr. Rich was President of the Penobscot Medical Association and of the Maine Medical Association, conferring more honor on those offices than they conferred upon him. He received the honorary degree of M. D. from Bowdoin College in 1851. He was Surgeon of the 4th Me. Reg't under General Blake, at the battle of Hampden, in 1814, when about 750 British attacked 450 Americans and wounded eleven. He had just extracted a ball from the hand of a soldier when the enemy suddenly entered the Hospital and both Dr. and patient fled, each in different directions, and did not meet again for several years. But the next day, by permission of an English officer, he resumed charge of the remaining wounded.

He was never satisfied with past attainments, but continually strove to make farther progress. He thoroughly investigated all his cases, consulting those authors which would reflect the most light and knowledge upon them. After the severe and harrassing labors of the day were over, he often read the medical journals until a late hour of the night, that he might keep pace with the discoveries and improvements of the profession.

He became acquainted with all the new remedies, giving each a fair trial and retaining only such as would bear the test of experience. He had great faith in the power of medicine to aid the recuperative energies of nature to overcome disease and repair the damages incurred, hence his practice was remarkable for honesty and entirely free from quackery. Although he desired success and was ambitious of a good reputation he had an innate aversion to see his name emblazoned in the newspapers in connection with formidable surgical operations.

He loved the practice of medicine and surgery for its own sake with an intensity unsurpassed. In it he lived, moved, obtained all his exercise and recreation. For it he sacrificed everything that stood in its way. Its duties to him were always paramount in importance, its emoluments subordinate. His services could always be commanded alike by the poor and the rich. No pestilence that walketh in darkness, no destruction that wasteth at noon day, neither summer's heat nor winter's cold, neither darkness nor distance ever appalled or impeded him in the discharge of his beneficent work, but the path of duty was ever the path of pleasantness.

As a physician he was courteous and honorable in his intercourse with his fellows, attentive and considerate to his patients, his presence was a cordial in the sick chamber, his manner inspired hope and confidence, he never gave the impression that the disease was more malignant than the reality so that the cure might be attributed to the exercise of miraculous skill on his part and thus redound to his glory, but having ascertained by careful investigation the exact malady, he endeavored to give the right remedy in the right quantity at the right time.

As a Surgeon he was cautious and eminently conservative. Though fond of operating he was more desirous to preserve than to amputate. He only performed an operation as a *dernier* resort when all the customary means had been tried and failed. He constantly prepared himself by consulting carefully the anatomy of the parts involved and by consulting the most eminent authorities on the particular case, and usually selected the forenoon for his most formidable operations when the body and mind were fresh and vigorous. His hand was firm and steady without a tremor to the last day of his life. He performed important operations very frequently and was remarkably successful. His circuit extended 50 miles in every direction and he often rode 100 miles to remove some morbid structure for those who could not come to him. His first capital operation was the amputation of a leg in 1809, and his last was the delicate operation of couching for cataract June 27th, 1865, when at more than four score years, with natural force unabated, with clear eye and steady hand he then gave the inestimable blessing of sight to a blind old man. During his long professional career it was often his privilege by the exercise of his skill to give sight to the blind, to make the lame walk, to raise thousands from the bed of pain and languishing and prolong many valuable lives in whose hearts his memory is gratefully enshrined evermore as the good devoted self-sacrificing Physician.

Respectfully submitted by J. C. WESTON, for the Committee.

The Issues Raised by the President.

The veto message and late speeches of President Johnson, marking as they do an important change in the views of that functionary, if we are allowed to infer from many of his past acts, and raising an issue with Congress and the loyal North on two vital questions, may well be regarded with regret and solicitude. If the principles set forth in these extraordinary productions are hereafter to govern the Chief Magistrate in his administration of National affairs, he must of necessity separate himself from those who elected him and have thus far supported him, and ally himself with the men who opposed the war at every step, the men who gave their sympathy to traitors in arms, the men who resisted the abolition of chattel slavery in season and out of season, and the men who now are straining every nerve to deprive the freedman of his rights as a man and a citizen and who are only anxious that those recently in arms against the national authority should be restored at once to their old position and power.

All the issues raised by the President are involved in these two:—

First—The President contends that the States lately in rebellion, from the moment that they submitted to superior force and acknowledged the authority of the Union, are entitled to a full restoration of their former political rights and power, including an equal voice on national affairs and the absolute right of regulating their domestic concerns and particularly the civil and political *status* of the freedman. Congress and, as we believe, the loyal North contend on the contrary that the political rights of such States by their act of rebellion are suspended until such time as in the judgment of the national authority, these States shall have given guaranties for their future loyalty and accepted in good faith the results of the war and particularly the legitimate results of the abolition of slavery and the elevation of the black man to manhood.

Second—The President contends that the right of suffrage should not be conferred upon a colored citizen either in the District of Columbia or in any late rebel State except with the consent of the white voters of the District or State. Congress, on the contrary, contends that a man's right to vote should not depend upon color; that the qualifications of electors in the District being by law regulated by Congress, there is no more reason—not so much even—why the white voters should be consulted on this question than on any other.

On the issues thus raised by President Johnson, we stand with the loyal majority of Congress. They are issues on vital questions, and so long as President Johnson takes the position indicated in his veto message and late speeches, he will win the plaudits of only men who sympathized with the South during the rebellion, with here and there one who thinks more of patronage than of principle; while the great mass of the true men of the nation, while deploring his recusancy to justice and freedom, will sorrowfully turn away, not in doubt or despair, but with undiminished faith in the ultimate triumph of Right. One, with God, is a majority.—[Lewiston Journal.

The Niagara (Canada) Mail announces that "the American Government has taken the necessary precaution to put a stop to Fenian or other raids which may be attempted, by giving instruction to the officers stationed at Fort Niagara to be on the alert, and fire upon parties who make any attempt at a raid on that side of the river." The other side of the river is regularly patrolled by efficient guards, and the mail says should any attempted raids take place, the parties concerned will have a warm reception both back and front.

Those who incline to favor President Johnson's policy of admitting representatives immediately from all the recent rebel States should reflect whether this would be a *safe* operation in regard to our *finances*, to say nothing more about other matters. Even if they came ostensibly as loyal men, would it be quite safe to admit twenty-two Senators from those States and thus, with the eighteen already voting with the South, throw a *majority* into the hands of those who are against a liberal, progressive system of government? Do we wish the finances of the country to be under the control of men who will be very likely to ask the Government to pay for the four millions of slaves emancipated, upon the specious plea that they were private property taken for public uses? Do we wish these men before they become better "reconstructed" in mind, to have the power to injure or destroy the national credit, (and thus endanger the whole monetary system of the country) by tampering with the national loans, or attempting to pay any portion of the rebel debt? Or shall we not wait a little and see if some constitutional guaranties cannot first be obtained for the financial safety of the country?

R. H. EDDY, Esq., of Boston, has well earned the title of the "honest and upright Patent Solicitor," now universally given him. Possessing more years of experience in his profession, and having procured more patents than any other solicitor now living, he is pre-eminently qualified to aid those who may desire to obtain patents, or to be advised in respect to the laws in relation to them. His powers of analysis to mechanicism, and his quick perception of its novel characteristics are such, that on the claims of specifications prepared by him there is little or no chance for an infringer to evade the patents. For thirty years or more he has devoted his entire time and energies to perfect himself in this department, and there is no man equally competent to give advice to inventors touching the validity of claims and the patentability or inventions. In prosecuting claims denied upon imperfectly prepared specifications, he has been particularly successful, a large part of his practice being appeals in cases where patents have been refused two and three times in consequence of inexperience and incompetency in preparing papers. We confidently recommend Mr. Eddy to all who are in want of any information on the subject, and can assure them that implicit reliance may be placed in any statements he may make.

CATARRH

The following testimonial is from Hon. Theodore Wyman, member of the Legislature from Sebec:

"After suffering from catarrh and polypus in my head for six years, I placed myself under the care of Dr. Carpenter, at the Bangor House, who removed the polypus with little pain, and after about three months treatment for catarrh, I find myself free from the complaint. When I consulted the Dr., I had copious discharges from my nose and mouth, dullness in the head and much difficulty in talking and breathing; I now have none of these troubles." THEODORE WYMAN.

Perry's Moth and Freckle Lotion.

Chloasma, or Mothpatch, (also Liverspot,) and Lentigo, or Freckles, are often very annoying, particularly to ladies of light complexion, for the discolored spots show more plainly on the face of a blonde than a brunnette; but they greatly mar the beauty of either; and any preparation that will effectually remove them *without injuring the texture or color of the skin*, is certainly a desideratum. Dr. B. C. Perry, who has made diseases of the skin a speciality, has discovered a remedy for these discolorations, which is at once prompt, infallible and harmless.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U. S. Patent Office, Washington, under the Act of 1837.

No. 78 State Street, (opposite Kilby street,) Boston.

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all papers or drawings for Patents, executed on reasonable terms, with dispatch. Researches made into American and Foreign works, to determine the validity and utility of Patents of Inventions, and legal and other advice rendered in all matters touching the same. Copies of the claims of any patent furnished by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents, or ascertaining the patentability of inventions.

During eight months the subscriber, in the course of his large practice, made on *twice* rejected applications SIXTEEN APPEALS; *every one* of which was decided *in his favor* by the Commissioner of Patents.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they can not employ a man *more competent and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE," Late Commissioner of Patents.

"Mr. R. H. EDDY has made for me THIRTEEN applications, in all but *ONE* of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

Bill to Regulate Trade with the British Province.

Report that the Fenians Intend to Make a Seizure of British Columbia!

A Proclamation to be Issued by the President. Enjoining a Strict Observance of the Neutrality Laws!

Great Fires in St. Louis.

WASHINGTON, Feb. 27.

The Bill reported to day from the committee on ways and means, regulating trade with the British and North American provinces provides that, from and after March 1, 1866, there shall be collected upon the following articles of the growth, production, or manufacture of the British possessions in North America, imported from Her Majesty's possessions, the following duties—

On fish—salmon, $2; shad, 150; mackerel herring, pickled and salted, 50; all other pickled fish $1 ₱ bbl. All fish not otherwise provided for, 50c. ₱ cwt.; provided, that any fish in packages other than barrels shall pay in proportion to the rate charged upon the same fish in barrels.

On lumber—Hemlock and spruce, round or hewn, 1 cent ₱ cubic foot; when hewn more than one quarter cent per cubic foot; when sawed and valued at $7 or less per M., $1 ₱ M.; when valued at over $7 ₱ M., $2 ₱ M.

On lumber—pine and butternut, basswood ash, elm and maple wood, round or sided, three-quarters cent per cubic foot; when more than one quarter cent per cubic foot sawed and valued at $7 or less per thousand feet $1 per one thousand feet; when valued over $7 and not over $12 per thousand feet $2 per 1000 feet; when over $12 per 1000 feet three dollars, provided that when lumber of any sort is planed or finished in addition to the rates herein provided, there shall be paid for each side so planed or finished, 20 cents, and if planed on one side, tongued and grooved, one dollar fifty, and if on two sides and tongued and grooved $2 per 1000 feet

On lumber—black walnut, cherry, chestnut and oak, not sawed and less advanced than boards and plank and not otherwise provided for, ten per cent ad valorem; when valued at $1 ₱ M ft. On ship timber 50 cents per M. railroad ties, rough hewn or sawed, 10 cents each. Shingle bolts, hubs for wheels, block posts and lumber not otherwise provided for, rough hewn or sawed, only ten per cent ad valorem. On pickets, palings and laths twenty cents ad valorem; on shingles—shingles 75 cts ₱ M; sawed pine and cedar shingles fifty cts ₱ M; spruce shingles forty cents; on pine clapboards $4 and on spruce do two fifty per 1000.

On animals—living, of all sorts, 20 per cent. ad valorem

Section four repeals all laws allowing fishing bounties.

WASHINGTON, Feb. 27.

No one obtained an audience with the President to-day, as the Cabinet was in session from 12 o'clock until a late hour in the afternoon. All the heads of departments were present

NEW YORK, Feb. 27.

The Commercial's Washington despatch says—

At the Fenian meeting last night, intimations were given of a plan to seize British Columbia and establish a harbor for privateers on the Pacific coast. It is understood that the British Minister has forwarded a communication on the subject to the State Department, and that it formed a topic for Cabinet discussion to-day.

A proclamation will probably be issued against any violation of the neutrality laws.

The Post's special Washington despatch says—

The military committee of the House will not report a new army bill, which does not increase the present army but reorganizes it.

ST. LOUIS, Feb. 27.

The loss by the steamboat fire last night, including the cargoes of the Dictator and Jesse, and the freight burned on the levee, is estimated at about $750,000. The insurance on the Dictator is $112,000. The other boats were not insured. The insurance on the freight, if any, has not been ascertained. The malliable iron works of Fox & Co. were burned yesterday afternoon. Loss $15,000—insured.

The flouring mill of Obermeyer & Co., and the Mansion School House were burned at 6 o'clock this morning. Less about $40,000—insured $27,000.

Nearly $500,000 have been subscribed here within a few days to the stock of New Merchants Insurance Company. John How has been appointed local director for this State.

Advices from Montana report that the Indians are committing great depredations.

Gov. Meagher had called for 500 mounted volunteers to march against them.

A large and enthusiastic meeting has been held at Springfield, Ill. A series of resolutions were passed strongly condemning the recent action of President Johnson, and heartily endorsing the action of Congress.

BALTIMORE, Feb. 27.

A despatch from Havre de Grace, Md., this evening, reports a considerable rise in the waters of the Susquehanna. Drift ice and large quantities of sawed logs have been constantly passing for the last forty hours. Damage very great.

RICHMOND, Va., Feb. 27.

The House of Delegates reconsidered the vote passing the Senate bill amending the usury law. The bill was then rejected, so that the legal rate of interest in Virginia will remain at six per cent.

HARTFORD, Ct., Feb. 27.

Albert L. Starkweather, the Manchester murderer, was to-day sentenced by Chief Justice Hinman to be hung on Friday, Aug. 17th. The prisoner manifested no perceptible emotion while the sentence was being pronounced.

BOSTON, Feb. 27.

The Superior Court, Judge Putnam on the bench, has been occupied yesterday and to-day with the case of F. O. J. Smith, recently convicted of subordination of perjury, on his application for new trial. Defendants counsel occupied all of yesterday and a portion of to-day in presenting his case. District Attorney Sanger for the Commonwealth replied this afternoon. The case will be resumed to-morrow morning, when it is expected the defendant in person will address the Court. The case excites great interest.

Edward S. Erving, Cashier in Boston Postoffice for nearly 36 years, and much esteemed citizen, died yesterday at the age of 71 years.

HARRISBURG, Feb. 27.

A terrific explosion occurred last evening at the furnace of J. & H. J. Neilly, in Middletown, resulting in the complete destruction of furnace and five men and wounding six others. There were eight boilers in the furnace; one was raised through the building and carried 1500 yards, lodging in the Pennsylvania Canal. The other boilers were carried in various directions some of them passing houses and other buildings. A portion of one boiler was hurled through a room in which two women were lying sick but fortunately did not hit them. The bridge over the Union canal was carried away and many of the dwellings in the vicinity were more or less shattered by the fragments. The whole town was shaken by the force of the explosion. The loss exceeds $50,000. The owners will rebuild immediately

NASHVILLE, Feb. 26.

The late storm having damaged the bridges on the Nashville and Decatur Railroad, shipments of freight is temporarily interrupted in consequence, but will be resumed on Thursday.

SAN FRANCISCO, Feb. 27.

A Democratic convention assembled at Sacramento a few evenings since, in large numbers, to sustain the President's veto and policy generally. Ex-Governor Bigelow addressed them in approval of the President's veto.

The loyal citizens of Eldorado met at Placerville last night and endorsed the position of Congress.

Thirty-Ninth Congress.

FIRST SESSION.

WASHINGTON, Feb. 27, 1866.

Senate.

Mr Poland introduced a bill giving bounties to widows of deceased soldiers.

Adjourned.

House.

The House resumed the consideration of the joint resolution reported Monday, to amend the constitution.

Mr Higby of Cal. favored it.

Mr Randall of Pa stated his objections to the proposed amendment, arguing that a proposition like this ought not to be submitted to those States which were not represented here, and which would be necessary to make it a law. He did not go to the extreme length of his friend from New Jersey, Mr Rogers.

Mr Kelley declared that he should support the proposed amendment.

Mr Hale felt compelled to vote against the amendment, and gave his reasons at some length.

Mr Price followed in favor of the amendment. He said Congress had jurisdiction under that clause of the constitution which declared that Congress shall have power to provide for the general welfare.

Mr Rogers—Will the gentleman inform me where he finds that clause?

Mr Price—Certainly; it has been the joy of my life to impart information to the ignorant. (Laughter.) It is in the 8th section, 1st article.

Mr Price read it.

Mr Rogers—Does the gentleman read from the text of the constitution?

Mr Price—See the difference between a common sense man and a constitutional lawyer. (Great laughter.)

Mr Rogers—You are right; it is here. I supposed it was only in the preamble.

Mr Price—These gentlemen have talked about the constitution, but when you bring them down to it, they know no more about it than if they had never been born.

At the conclusion of Mr Price's remarks, Mr Davis obtained the floor and the matter went over until, to-morrow, when it is understood the previous question will be ordered.

Mr Morrill, from the committee on ways and means, reported a bill regulating trade with the British and North American possessions, which was read twice and made the special order for Friday next.

The Speaker presented a communication from the Secretary of the Treasury, with the report of S S Hayes, U S Revenue Commissioner, on petroleum as a source of national wealth, which was referred to the committee on ways and means.

Mr Woodbridge offered a resolution which was adopted, requesting the President to communicate to the House all the information in his possession in relation to the distribution of the rewards offered by the government for the arrest of the assasins of President Lincoln.

Mr. Julian from the committee on public lands, reported a bill to develop and reclaim the public lands, requiring irrigation in Iowa, Colorado, Arizona, Montana and Nevada. Recommitted.

Mr. Smith introduced a resolution, which was adopted, requesting the President to communicate any correspondence or information in possession of the Government, in reference to the term of office of President Juarez, &c., &c., and as to any vote of confidence or extraordinary powers given to him by the Congress of the Mexican Republic.

Mr. Cobb offered a resolution, which was adopted, directing the Secretary of War to communicate the estimates based on the survey of Lake Superior harbor.

Mr. Hubbard offered a resolution, which was adopted, directing the Secretary of the Navy to furnish the names, &c., of Chaplains in the navy.

Mr. Raymond offered the following resolution, which was adopted:

Resolved, That the Committee on Commerce be instructed to inquire into the expediency of imposing lighthouse dues on all vessels arriving at or departing from ports of the United States and to report by bill or otherwise.

Mr Mercer offered a resolution instructing the judiciary committee to inquire into the expediency of providing by legislation for the issuing of certificates to soldiers who have lost their discharges. The resolution was modified and adopted.

Mr Van Horn offered the following:

Whereas, the Emperor of France, at the opening of the French Chambers, announced his purpose of withdrawing the troops from Mexico, expressing a hope that the emotion excited in this country would be allayed by such action; and whereas, the nation accepting such declaration in good faith, it is but proper that it should insist as a guarantee for its fulfilment, that no further employment of French troops in Mexico should be made except to preserve the statu quo until the period of their withdrawal arrives.

Therefore resolved, That in the judgment of Congress, the employment of French troops in further conquests in Mexico, would be, and should be considered as a violation of such pledge on the part of France. Referred to the committee on foreign affairs.

Mr. Briggs presented the joint resolution of the legislatures of New York and Wisconsin in favor of the extension of the time for completing the Portage Lake Canal in Michigan, &c. Referred to the committee on public lands.

Mr. Brandage offered a resolution, which was adopted, instructing the Committee on naval affairs to inquire into the advantages of the site offered to the Government on the River Thames, near New London, Connecticut, for a navy yard or naval station for iron-clads or other naval vessels, and the expediency of accepting the same.

To the Editor of the Daily Whig

Please publish the fact that at a Town Meeting in Oldtown, on Saturday afternoon, Feb. 24th, the inhabitants voted, by a large majority over the two-thirds vote required, to raise the sum of $3000 in aid of the sum required to pay for the White and Frost farms, for the location of the State College of Agriculture and the Mechanic Arts. And that, the inhabitants of Orono, at one of the largest Town Meetings ever assembled, this day, Feb. 26th, voted *unanimously* to raise the sum of $8000, that being the balance necessary to complete the purchase of the aforesaid farms. Four or five different votes were given upon as many different motions to complete the business of the meeting, and in *each case* the contrary was called for, but *no single* negative vote was given. Emphatically "*a Union Meeting.*"

Messrs. W. Wilson, B. F. Gilman and E. P. Butler were chosen a Committee to make the purchase and forward the deed to the Trustees, also to do any other act or thing, necessary to carry into effect the object and purposes of the act granting aid to said College. The location is, every way, a very desirable one, and the farms a great bargain for mere farming purposes—but a capital one for the object proposed. Something yet remains to the friends of the College to do in Bangor, and we shall be pardoned for reminding them, that it is important the amount guaranteed by them should be satisfactorily provided for, as early as the 20th of March. This done, the trustees will be expected to move with energy and despatch in putting this Institution into successful operation.

N. W.

ORONO, Feb. 26, 1866.

N. B. I will add a vote of thanks was given to our Oldtown friends for their generous aid of $3000, and to the Hon. H. Hamlin for his earnest, persevering and successful efforts in securing the location at Orono.

—The Hon. A. H. Gordon, Governor of New Brunswick, arrived in this city about midnight last night, on a special train, on his return from Montreal. The Governor took rooms at the Bangor House.

REMOVAL. The office of Hon. A. A. Wing, Collector of Internal Revenue for this district is removed to the room formerly occupied by the Norombega Bank Exchange Block.

YOUNG MEN'S BIBLE SOCIETY OF BANGOR. At a meeting held on Monday evening the following officers were elected for the current year:

President—Thomas Secretary.

Vice President—Samuel D. Thurston.

Secretary—N. L. Perkins.

Treasurer and Depositary—E. F. Duren.

Executive Committee—Wm. Jewell, 1st Cong'l Church; A. Hill, Hammond Street do.; N. B. Jenkins, Central do.; E. H. Fogg, Free will Baptist Church; Jona. Burbank, Pine Street Methodist Church; N. H. Bragg, Union Street do.; F. M. Sabine, Unitarian; —— Farrington, 1st Cong'l Church, Brewer; —— Sargent, Brewer Village; D. B. Doane, Methodist Church, Brewer.

Auditor—W. P. Hubbard.

DEATH OF A JUROR. We learn that Hartley W. Trask, Esq., of Hudson, who has served as Foreman of the Second Jury, at the present term of the Supreme Court, was taken ill about a week ago of malignant erysipelas, and died at his home on yesterday morning, at the age of 62 years. He was an excellent citizen and a useful man, and is deeply lamented in the community where he had lived for twenty-five years. His death has caused a sad breach in the domestic circle in which he was an affectionate husband and loving father.

—There will be an especial Missionary service, this evening, at half past seven, at St. John's Church, French St.

—A cutter of the Maine Twelfth arrived at Augusta on Sunday, from Savannah.

—The Portland election takes place next Monday, March 5th. The Advertiser says, that Mayor McLellan is not a candidate for re-election.

Our own city election occurs on Monday, the 12th. Mayor Dale, after serving laboriously and acceptably for three years, also retires from the office.

TO CORRESPONDENTS. We would suggest to those persons who attempt to write poetry for our paper, that one of the *first* requisites to secure publication is that the editor shall be able to read the manuscript. We do not consider illegibility to be any proof of genius; and therefore do not puzzle our brains by attempting to make sense out of such manuscript. And by the way, the same remark may be considered as applying to *prose* communications.

—The great Freedmen's Aid Fair opened in Portland on Monday evening, to continue one week. Over two thousand tickets were sold prior to the opening. Excursions to visit the Fair have been arranged from adjoining towns.

—Joseph Tyler, of Sebago, hired a horse and sleigh of Mr. John E. Woodman, of Bridgton, under pretence of going to Sebago, but took another direction and gave the horse away at Fr eeonia Notch. The officer in pursuit found him in St. Johnsbury jail. He had stolen another horse and sold it, and was on the Grand Trunk Railroad when he was caught and lodged in jail.—[Advertiser.

FATAL RAILROAD ACCIDENT. John D. Parkhurst of Gloucester, Mass., in getting upon the platform of a car on the Eastern Railroad at the Central Station in Lynn, about 5 o'clock, Friday afternoon, fell, and his left leg coming under the forward wheel, was badly crushed. The leg was amputated above the knee, but Mr. Parkhurst died of his injuries Saturday morning. He leaves a wife and four children.

POTATOES. The Clarion at Skowhegan says some six thousand bushels of potatoes were hauled into that market, on Wednesday and Thursday last. They are now selling at 45 cents a bushels.

—The Clarion says that Mrs. A. K. P. Fogg, of Cornville, had a narrow escape from death on Saturday evening, 17th inst. Mr Fogg had purchased at Skowhegan, a bottle of spirits turpentine, naptha and Japan, for the purpose of painting. On returning home she set it on the shelf over a hot fire, which caused the bottle to explode, and set the contents on fire. Mrs. Fogg in attempting to remove it got it upon her clothes which took fire and severely burned her. Her husband's mother on hearing the alarm, threw a rug areund her which put the fire out, but not before she had received severe injury.

—A woman who came to Skowhegan on the North Anson stage on Thursday last, and took a ticket for Augusta, attempted to abandon an infant eight weeks old by leaving it in the water closet at the depot. It was discovered, however, before the train started, and the conductor compelled the woman to take charge of it again. So says the Clarion.

—The Portland Star says a horse, valued at $800, owned by Mr. Bradbury, fell on Middle street, in that city, Friday afternoon and was so badly injured that is feared he is ruined.

—Brunswick is having a course of lectures, which, the Telegraph says, are got up by the College students, who are deserving of full credit for their enterprise and perseverance in the premises.

—A fire occurred at Phillips on the 20th ult., which destroyed three stores, a store house and two sheds. One of the stores and store-houses belonged to Hon. W. H. Josselyn. The ground floor was occupied by Messrs. Josselyn & Brothers for a store, and the second floor by Smith Sprague for a dwelling. Messrs. Josselyn saved the most of their goods. Sprague saved about one-half of his furniture. Mr. John Bates owned and occupied one store and shed, both for trade and a dwelling. He lost about one-half both of goods and furniture. Total loss estimated at about $4500, one-half covered by insurance.

—The staging, which has for several months formed a complete net work about the spire of the new granite church in this city, obstructing its beautiful proportions,—was taken away on Saturday last, work upon it having been completed. Its architectural design and finish certainly leave nothing to be desired, as it is as peafect, complete and beautiful in its way, as anything we have ever seen. The edifice, from its fine and commanding position, is an ornament to our city.—[Augusta Farmer.

John Minor Botts has just issued an address to the people of Virginia. He says: "I would forfeit forty seats in the Senate—aye, the Presidency itself—if it were offered to me to-morrow, sooner than see that element of secession-Democracy raised to power again, except that such a position would enable me to crush it the more effectually than by another means."

FELLING A TREE BY FIRE. Bishop Kinsley, in a communication to The Christian Advocate on Oregon says of the monster red fir and cedar trees of that country:

"The idea of burning down a tree six and eight feet in diameter, and solid and green, would have seemed to me as simply absurd and ridiculous. But the thing is done in Oregon every day at a vast saving of time and labor. The operation is done in this wise: A hole is bored into the tree horizontally, the nearer in the centre the better. Then directly under this hole another is bored at an angle of elevation such that the two holes meet together near the centre of the tree. A coal of fire with a little kindling is introduced into the orifice thus formed, and the lower hole causes a draught, and the upper one performs the functions of a chimney. The heart of the tree is dry, and contains a considerable quantity of pitch, and when manipulated as I have described, burns briskly.

It is generally necessary to feed this fire with some fresh fuel from time to time. But one man can keep a number of trees thus burning, and will get twenty or a hundred trees down thus much quicker and easier than he could otherwise do. In a similar manner, when the tree is down it is cut into pieces by being burned in two. A hole is bored in the log from top, and another from the side, till they meet as before described, when the perpendicular hole acts as a flue and the horizontal one furnishes the draught. It often happens that in burning a large tree into lengths for saw-logs there is not more timber wasted than would result from chopping off the log with an axe."

THE FRUITS OF LIBERTY. In a late speech Gen. Howard reported that he had official notice of 70,000 negro children attending school in the Southern States, and he knew of many self-supporting schools besides. He mentioned six colored schools in one town, Tallahassee; in Lynchburg, he found a school taught by a colored man.—The Freedmen's Bureau had secured school privileges in the labor contracts, he added. The Macon Journal reports that more than four thousand colored people of both sexes and all ages, are attending schools in that city. "Whole regiments of colored people have learned to read," said Gen. Howard, "and I should not be surprised to hear that on every plantation at the South some of the people know how to read."

Six years ago men were hanged and women imprisoned for teaching colored children to read. Six years hence a great part of these very colored people will be in the exercise of the elective franchise with the voluntary consent of the communities in which they live, and as the natural result of their intelligence, enterprise and good conduct.

When Vallandigham heard of the President's veto, he raised the American flag on his house, and stated that it was the first time he had done so for five years.

SUDDEN DEATH OF TWIN BABIES. The sudden death of two babes, twins, was mentioned in the Boston papers a few days since and it was stated that the parents resided in Boston. An investigation shows that the affair occurred in Charlestown. The babes were named Laura and Augusta respectively, and were the twin children of Richard and Augusta Seidensticker, who reside on Thorndike street, Charlestown. The deaths were very sudden. The mother was nursing one while the father was holding the other in his arms. The one being held by the father suddenly dropped its head and expired almost instantly, and while the mother was in the act of exchanging with the one she held, this was also found to be dead. The babes were two months and thirteen days old, and the cause of their death is unknown. They were considered healthy babes, and were to all appearances in their usual good health up to the time of their death.—Boston Traveller.

I. O. OF O. F. Past Grand Master Henry F. Garey delivered an address in Washington a few evenings since, in the course of which he gave an estimate of what the Order had accomplished since 1819. It has taken into its treasury twenty-one million dollars, initiated five hundred and sixty thousand members, and relieved thirty-eight thousand indigent families; it has spent seven millions in the relief of the distressed, and has educated three thousand orphans and put them in industrial employments, many of whom are now to be found in every position of honor in the country.

Let the leaders, the conscious, intelligent traitors; be punished and be subjected to the penalties of the law. But to the great mass, who have been forced into this rebellion in many instances, and in others have been misled, I say leniency.—[*President Johnson's Speech.*

That is precisely what the "radicals" say. "Leniency" to the mass of the rebels, but just punishment to the conscious leaders.—They agree with President Johnson that "treason is a crime, and must be punished." We would respectfully ask President Johnson to point out the leading, conscious traitor whom he has punished, or whom he *intends* to punish? The country has not seen or heard of him. On the contrary, such conscious traitors have been pardoned by the score and hundred, and soon will be by thousands.

MUTTY'S
Friction Feed Roller,
FOR CIRCULAR SAWS,
PATENTED JANUARY 23d, 1866.

THIS INVENTION is applicable to all Circular Saws provided with stationary tables and used for re-sawing lumber.

It reduces the labor of sawing one half, and fifty per cent. more lumber can be sawed with, than without its use. It is applied without change of existing machinery; is not liable to get out of repair, and not expensive to apply.

It has been in practical use on the Penobscot river for one year, where the above facts have been fully and satisfactorily demonstrated, as is shown by the certificates of master mill-men, machinists, owners and operators of mills appended hereto.

The undersigned have for the past season witnessed the practical use of MUTTY'S FEED ROLLER in re-sawing lumber, and we cheerfully recommend it as a practical, economical, and labor-saving invention, destined to come into general use in all cases where lumber is re-sawed upon stationary tables. We are fully satisfied from our own observation that the saving effected, and extra amount cut, by its use, is fully as large as the estimate above given.

Important to Manufacturers.

FOR SALE—The best Water Privilege in North Eastern Pennsylvania, with about thirty feet fall of water, supported by a dam of solid masonry, laid in water cement. Supply of water unfailing, capable of running eight or ten wheels through the entire season. There are now seven wheels running on the property.

Located near the Borough of Honesdale, on the line of the Delaware and Hudson Railroad, from which stock can be delivered directly into some of the shops.

Communicates with New York by Delaware and Hudson Canal, and with Philadelphia, Harrisburgh, Pittsburgh, &c., by rail. The cheapness of coal, and convenience of market communications, makes this a very desirable manufacturing property.

On the premises are four large factories and a first class saw mill.

About 160 acres of Farming Lands, with first class farm buildings, and over 100 acres of timber land can be purchased with the above property, if desired.

NICHOLS HOUSE.

The undersigned having leased, for a long term, and thoroughly renovated and refitted the NICHOLS HOUSE (late "Dwinel House") in Bangor, has this day re-opened the same to the public accommodation.

This Hotel is centrally located, and in close proximity with the Boats and Cars.

The Proprietor has had a long experience in the "Parker House," of East Corinth, and the "Shaw House," of Newport, and flatters himself that to all patrons he will furnish an agreeable and comfortable home. Every effort and expense will be used to make this House as popular and attractive as any in this section of the State. Having lately purchased the large and enterprising

Livery Establishment

Lately owned by CALEB BILLINGS, Esq., the same will be carried on in all its departments in connection with said Hotel. The undersigned will be ready to furnish teams of all descriptions, and will extend all accommodations to those who may favor him with their calls.

☞ Coaches in readiness for any business at all hours.

☞ Orders may be left at the House, or at the Stable office, where a reliable man will hereafter be found to attend upon the wants of customers.

Lease and Fixtures for Sale

—OF THE—

AUGUSTA HOUSE.

The undersigned being compelled (on account of ill health) to relinquish Hotel business, offers for sale the lease and a portion of the furniture of said House.

This Hotel ranks among the first in the country, and commands a large proportion of the travel. It has one hundred twenty-five rooms, perfectly ventilated and substantially furnished. Attached to the house are Bathing Rooms, Shaving and Billiard Saloons, &c.

In connection with the house is a large and convenient Stable, and a fine livery stock.

To any one desirous of entering the hotel business, will find this a rare opportunity with comparatively a small capital.

HARLOW ST., BANGOR, MAINE,
A. T. CHICK, - - Proprietor.

THIS House is situated in the most business part of the City, and is now open to the Travelling Community.

The Proprietor hopes by strict and personal attention to receive a liberal share of patronage.

The tables will be furnished with the best the Market affords, and every attention paid to the wants of his guests.

There is attached to this House a good STABLE, with attentive Ostler. Charges moderate.

FRANKLIN HOUSE,

Harlow Street, Bangor, Maine.

This well and favorably known Hotel, having the past season been enlarged, remodeled and refurnished, has now all the appointments of a first class Hotel.

The subscribers, having leased the above House for a term of years, and having had several years experience in the business, flatter themselves, by strict and personal attention, to merit a liberal share of public patronage.

In location, this house has no superior, being in a central position, and on one of the pleasantest streets in the city. In connection is a large and commodious Stable, in the care of attentive Ostlers; also a Livery Stable, which will always be supplied with first class teams.

☞ Stages leave the house daily for all parts of the country.

DR. LAROOKAH'S Sarsaparilla Compound,

For the Speedy and Permanent Cure of *Liver Complaints, Scrofula or King's Evil, Eruptions and all Eruptive Diseases of the Skin, St. Anthony's Fire, Salt Rheum, Pimples, Pustules, Blotches and Boils, Rheumatic and Neuralgic Pains in the Bones, Side and Head; for the various Weaknesses to which Females are liable; Dyspepsia, Debility, Emaciation, Dropsy, and all diseases resulting from or in an impure state of the Blood.*

IT is invaluable to Nervous Sufferers, and a positive cure for Palsy arising from the abuse of Mercury or Lead.

It is a Tonic as well as an Alterative, and a sure protection from attacks that originate in change of climate, season or life.

LIVER COMPLAINTS and their combined symptoms, such as Lumbago, Jaundice, Rheumatism, Bilious Eruptions, &c. When caused by *Scrofula* taint, this compound is a most effectual remedy.

DYSPEPSIA or INDIGESTION, is often caused by Scrofula, which deranges the stomach and renders it unhealthy. Indigestion is not always caused by Scrofula, when it is, this Sarsaparilla Compound is a ready cure.

NEURALGIA, HEADACHE and various disorders of the nervous system frequently arise from a low state of the constitutional health, and are much relieved and often cured by this powerful remedy.

ERYSIPELAS, Boils, Tumors, or Salt Rheum, Ulcers, Sores, &c. Moderate doses three times a day will usually effect the cure of the above complaints, but often requires considerable time.

Price one dollar per bottle. Six bottles for five dollars.

DR. LAROOKAH'S

ALL-CONQUERING

INDIAN VEGETABLE PULMONIC SYRUP,

A Sovereign Remedy for Coughs, Colds, Bronchitis, Consumption, and all diseases of the Throat & Lungs.

Unsurpassed by any Medical Discovery in the World. DR. E. R. KNIGHTS, Proprietor, Melrose, Mass.

Price 50 Cents and $1.00 per Bottle.

DR. KNIGHTS' Oriental Hair Restorer.

After a long series of experiments, this article, as it is now offered to the public, is believed to be the most perfect of its kind which science has ever devised. No pains have been spared to produce what has so long been demanded by thousands, who, from sickness or other causes, have become prematurely grey; and others, who, in the sere and yellow leaf of life, would retain, as far as possible, the semblance of youth. DR. KNIGHTS' ORIENTAL HAIR RESTORER, after a few applications, *restores grey or faded hair to its original color,* and is the only preparation of the kind upon which the public can place any reliance. *It has never been known to fail in a single instance,* and is totally unlike the thousand and one so-called Hair Restorers, by which so many have been egregiously deceived.

It is delightfully perfumed, gives the hair a rich and glossy appearance, promotes its luxuriant growth, and will not soil the skin, scalp, or any article of apparel.

PRICE 75 CENTS PER BOTTLE.

Prepared by
E. R. KNIGHTS, Chemist, Melrose, Mass.
